

Getting Started with QuaverReady

QuaverReady offers an innovative approach to social and emotional learning that focuses on the needs of PreK–5 students and the teachers and counselors who support them. All lessons (36 per grade levels K-5 and 22 in Pre-K) are aligned to CASEL competencies. The platform is engaging, interactive, and is designed to help students succeed in school and in life.

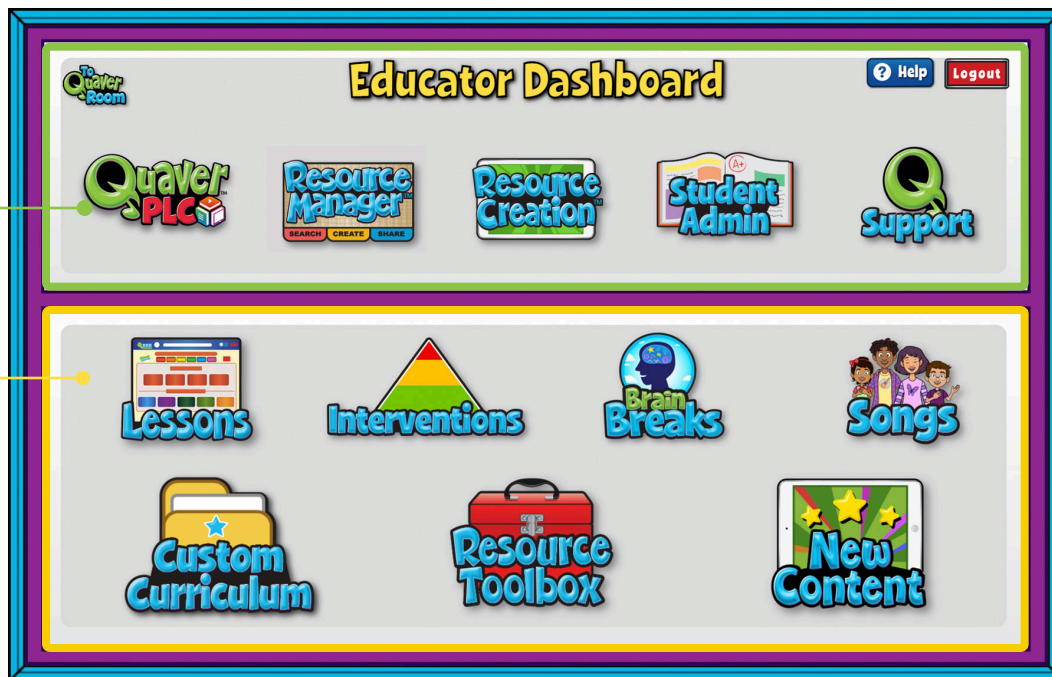

QuaverEd supports most district log-in options. Whether your school uses SSO, Auto-Registration, or uses a log-in on our website, we make it easy. Check out our logging-in page for more information.

How to Access QuaverReady

1. Visit QuaverEd.com.
2. Click Log In, located in the top right corner.
3. Enter your Username and Password.

Once logged in, you'll be taken to your **Educator Dashboard**—your one-stop-shop for all of your QuaverReady Resources! The Dashboard can be broken down into two categories: **Tools** and **Teaching Resources**.

Tools — The top of the Dashboard contains tools that will help you customize and organize your teaching resources.

Teaching Resources — The bottom half of the Dashboard includes ready-to-launch resources and additional information to support your instruction.

Here are two easy ways to get started from your Educator Dashboard:

1 • Explore a Complete Lesson

Click the **LESSONS** icon to open a menu of Quaver-Ready lessons organized by grade level or CASEL Competency. Click any grade level or competency for a sub-collection of lessons, then click the lesson to launch a lesson summary screen.

Use the colorful buttons to explore the lesson's objectives or to print a **Lesson Plan** or any available worksheets. Then click **Launch** to open the lesson in a new tab and try it with your students.

Each Lesson is designed to last between 30–45 minutes, or you can tackle a single activity in the lesson in just 5–10.

2 • Search for a Single Activity

Back on your Dashboard, click the **RESOURCE MANAGER** icon, to use the Topic Index to search with a specific standard, concept or goal in mind, and organize the resulting Quaver resources into folders or custom lessons for easy access throughout the year.
